Job Description: We are in need of technical help to update the posting of our services, sermons, and website. We upgraded our camera and the recording of our services with the onset of the coronavirus, but presently only post on YouTube with a link (sometimes) to a Facebook page. The postings are not in chronological order, and somewhat challenging for people to find on YouTube. We would like to move to having the service streamed from our own website if possible or have some other means of enhancing our posting and distribution of our online services. We are at the limit of the technical capacity of our present video and audio recording team and need some help from someone who has expertise in this area and in the related upgrading of our website who has a heart to help us get the gospel out and nurture our flock. ### 4. About the Ministry:

*Here is a brief paragraph (120 words) describing the church or ministry to be served (size, demographics, year started, etc.).*

A small body of committed outreaching believers in the heart of Appalachia, begun in 1930 through Bible Schools for children, and continuing to have an open door in the public grade school and middle school (except this year during the pandemic). We recently completed building a new church house with volunteer labor to enhance our ministry, and then the coronavirus arose. We prayerfully desire to expand the nurture of our own people and our outreach to our community with the Gospel through the improvement of our online and website presence.
