West Littleton is located in central Colorado, nine miles south of downtown Denver. The Western Church Planting Network (WCPN) is committed to seeing a PCA church planted in West Littleton to reach and serve this area of the growing city.

WCPN foresees a healthy and growing, self-sustaining and self-governing PCA church in West Littleton characterized by vibrant Christ-centered worship, effective ministries of evangelism, mercy, and missions coupled with transformational fellowship and discipleship all to the glory of God. The hope is to see this church make disciples who will then help to spread the gospel, multiplying praise to God and planting churches throughout the region.

The Western Church Planting Network’s vision is to plant 20 churches by the year 2025 (twenty churches in ten years). To date we have planted 13 churches and we have 2 new works

in process. Each church plant entails shepherding a prospective planter through a church planting residency. This

allows the candidate to experience the culture and realities of church planting without the pressure of organizing a church while also allowing time to discern whether this plant is a good match for both parties.
