Wisconsin Presbytery Church Plant

Presbyterian Church in America

Beloit, Wisconsin's website paints a picture of the the city in this way, "Beloit is located on the southern Wisconsin state line and our Welcome Center greets over 1,000,000 tourists annually. Beloit was forged in fire and heavy industrial manufacturing, but we survived the great recession with a renewed spirit. We celebrate a proud legacy of strength, beauty, and diversity. Some of our greatest assets include, our world-class riverfront, our charming downtown, the internationally renowned Beloit College and historic residential neighborhoods."

Unfortunately, their strength, beauty, and diversity are not grounded in the gospel. Rock County statistics reveal that almost 53% of the residents do not identify with any religion.

Beloit needs a PCA church plant that will define strength, beauty, and diversity in relation to Christ and a spirit that is not just renewed, but one that is made new. They need a reformed church that will offer them a true anchor in the midst of a city that

faces high rates of poverty and a poor education system.

The majority of churches in the Wisconsin Presbytery are invested in their church planting network, "On Wisconsin." The goal of "On Wisconsin" is to plant 16 more churches in Wisconsin in 10 years.

Since 2012, 5 churches have taken root, 5 new works have started and 2 RUF chapters have begun. By the grace of God, a church in Stevens Point will soon be added to those numbers.
